

AMENDMENT(S) TO THE SPECIFICATION

Please replace the paragraph beginning at page 9,line 26, with the following rewritten paragraph:

Fig. 5 shows an enlarged illustration of the preferred variant of the design of holding pipe 7, coolant pipe section 6 in accordance with the invention and also the way in which the connecting piece 8 is secured to the cooling plate 1 by means of screw connection 9. The holding pipe 7 and pipe section 6 are sized to provide a clearance between them.
